

## **Internship as intellectual property expert**

**For students with background in engineering with interest in patent law.**

**Join the greenTEG team and advance with us** – greenTEG offers high-tech thermal sensing solutions for an international customer base. We develop, manufacture, and market heat flux sensing solutions at our headquarters near Zurich. For realizing our intellectual property (IP) strategy, we would need your support.

### **As part of the R&D team, you will:**

- Collect, document and evaluate internal patent ideas
- Making first patent searches (eg, guided patent searches at the IGE in Bern)
- Communication of patent ideas to our external patent lawyers and support them in the patent filing process
- Structuring and maintain our current IP
- Filing of trade marks
- IP analysis of competitors

### **Required**

You are engineering student and are looking for an internship in an entrepreneurial atmosphere for the **duration of four to six months**. You are motivated, able to learn fast and you have a structured way of working. You like to tackle technical problems, but you also have good communication skills and enjoy working with people.

- Interest in patent law
- Engineering background
- Good communication level in German and English written and orally
- Beneficially joined lectures in patent law

### **Welcome in our team!**

We offer a collegial and striving work environment at our brand-new office in Rümlang in a motivated, dynamic and high-tech oriented team. You will benefit from the knowhow of your supervisor (7 filed patents for greenTEG) and get in contact with patent experts (patent lawyer and patent search specialists)

**When you already have your bachelor degree, the Internship can be fully counted to the required 3 year training before attending the patent lawyer exam.**

**Interested? – Join us!**
